Due to the high grip of the Naxos track, the organiser and tyre manufacturer have advised these tires for the GT8 EC to make it more pleasurable for the driver experience.

Several distributors will be present at the event for sales (bodies, fuel, tires and all other accessories) and track support.

The practice tires are available on:  
[www.schepismodel.com](http://www.schepismodel.com) and all  
schepismodel retailers.
